

artclectic 2007

General Information

Purpose

artclectic 2007 celebrates the 11th anniversary of University School of Nashville's Art Show. The event provides a unique arts forum for USN and the region by showcasing a diverse and exceptional selection of original art. The show provides valuable arts education opportunities for USN students and the Nashville community through enriching visual arts experiences such as artist demonstrations, class tours of the show and discussions with the artists. Proceeds from the show benefit educational programs at USN.

artclectic has grown tremendously over the years both in scale and prominence in the arts community. People come back year after year to support the school through the purchase of art, auction items, party tickets and as participants in seminars and workshops.

artclectic has a growing reputation with artists for its professional lighting, knowledgeable artist helpers, two fabulous parties and delicious food available throughout the weekend. Several artists have been picked up by galleries as a result of showing at **artclectic**. Lee Ann Merrick, **artclectic's** Liaison, is joined by other staff, faculty, and dozens of parent volunteers to bring this annual event to the community.
