

# Spyware Cont'd

Who's watching you? A lot of people or companies could be, if you aren't careful.

---

## INTERNET

---

The following software programs contain spyware/adware. All of these applications are expressly forbidden to be downloaded on a USN computer. All of these applications have been found on USN computers and all cause problems with either individual computers or our network.

**Gator or GAIN** (Gator Advertising International Network)

**Date Manager** – Renamed by Gator because of Gator's poor reputation.

**Precision Time** - Renamed by Gator because of Gator's poor reputation

**Wild Tangent** – A game site that downloads spyware and maintains a connection to the Internet.

**Xupiter** – This is both adware/spyware and a browser hijacker.

**Save Now** – Adware

**Bonzai Buddy** – Adware

**Keen Value** – Adware

**Comet Cursor** – Adware

**New.Dot Net** – Adware/spyware

**Delphin Viewer** – Adware/spyware
